

# Creekmoor Youth Centre

## How can we help you?

At AIMCommunity, we empower young people in Dorset through creative arts and mentoring, offering programs that foster personal growth, enhance learning skills, and promote well-being. Our services are designed to help overcome barriers, develop new talents, and achieve your full potential in a supportive and nurturing environment. The organisation emphasises the importance of well-being, aiming to help individuals find a positive sense of self, safety and confidence through using the ASPACE and Hope Home Whole models.

## Programs and Services:

- **STARFISH Program:** This program offers creative arts education and mentoring for young people in BCP. It focuses on providing a safe and nurturing environment where participants can explore their creativity and develop new skills.
- **FLAiM:** FLAiM is a day provision offering a safe and welcoming space for vulnerable adults with neurodiverse needs, learning difficulties, and disabilities. The program aims to provide support and opportunities for personal growth through creative activities.
- **Creative Mentoring:** Designed for young people who have an identified interest in a creative field, this program offers one-on-one mentoring to help them further develop their skills and pursue their passions.
- **TranquilOT:** An Occupational Therapy program by AIMCommunity that supports young people aged 10 to 18 facing challenges such as mental health issues, or sensory difficulties and integration, helping them engage in meaningful daily activities to enhance their well-being.
