Topic: Discussing multiple outcomes to help create a BCP Children & Young People’s Plan

Single Strategic Framework							
CYP / Families Outcomes	Supporting Families	SEND Outcomes	BCP Priorities	5 priorities (CSD, Health and Police)	CS Strategic Outcomes*	EH Strategy Objectives	CYP Partnership Plan 2024-2028
Happy and Healthy	Improved mental and physical health	I feel all the services are working together for me	Our People and Communities Open and transparent Council	Healthier (Mental and physical wellbeing) Happier (emotional wellbeing)	1. Right Support at the right time for children and families	Build a strong multi-agency skilled partnership that works together to support local families.	Doesn't make any sense
Resilient	Secure housing	I am supported and have people I can trust	Our People and Communities			Build resilience in families and communities, equipping them with what they need to wrap support around infants, children and young people	Bit confused on how columns link - why are some blank?!
Offered Opportunities	Financial stability	I am confident in achieving my goals and about my future	Our People and Communities Open and transparent Council		2. All children and young people have the best opportunities in life and are supported by the community to flourish and grow in order to succeed	Build a strong multi-agency skilled partnership that works together to support local families.	
Supported to achieve	Good Early Years development Getting a good education	I am included and involved	Our People and Communities	Supported to achieve	3. All children and young people are included and have access to opportunities - education, skills and employment	Provide access and pathways to the right people, for the right conversations at the right time, so families get the help they need when they need it most.	
Heard and recognised	Children safe from abuse and exploitation Improved Family relationships	My voice is listened to and I am believed	Our People and Communities Open and transparent Council		5. Outstanding quality of practice across the whole of children's services improving the lived experience of children and families	Evidence the impact the partnership is having on the work it is doing and use family voice to shape future service design.	
Safe and protected	Crime prevention and tackling crime Safe from domestic abuse Promoting recovery and reducing harm from substance abuse	I feel safe	Our People and Communities Open and transparent Council	Free from neglect Living in safe places (homes & communities)- including safety from domestic abuse, serious violence, and child exploitation		Reduce risks for our infants, children and young people who are identified as being at significant risk of harm.
